HALEYS Group Middle East

Your Trusted Partner for Innovative
Engineering Solutions

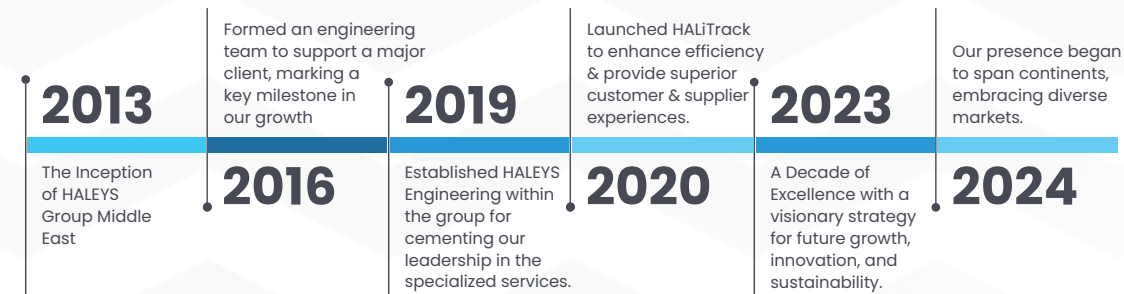

Company Overview

Excellence Redefined

Who We Are

Serving the Energy and Infrastructure sector since 2013

Step into the world of Haleys Group Middle East, an industry leader in engineering support services, serving the Energy and Infrastructure sector since our inception in 2013. Our establishment was born from a vision to address the rising demand for premium, standardized engineering support services across the globe.

Industry Expertise

Led by industry veterans with deep expertise.

Beyond Compliance

Committed to mitigating risk and promoting sustainability

Unyielding Quality Standards

Unwavering commitment to highest quality standards.

Your Global Partner

Building lasting, trust-based relationships

Our Purpose

We're committed to sustainability through people, property, and the environment.

Our Vision

Committed to a sustainable future that benefits all.

Vision Rationale:

Our vision of being "Committed to a sustainable future that benefits all" is grounded in our belief that responsible, inclusive, and forward-thinking businesses play a vital role in shaping a better world. By prioritizing sustainability and inclusivity in our endeavors, we seek to not only drive economic success but also ensure that the benefits are accessible to a broader global community. This vision reflects our dedication to long-term prosperity, ethical leadership, and our responsibility as a global corporate citizen to contribute positively to society. By aligning our efforts with this vision, we aim to inspire change, foster innovation, and make a meaningful impact on the well-being of people worldwide.

Our Values

We Embrace Care

We prioritize compassion and attentiveness in everything we do, demonstrating a genuine concern for the well-being of our team members, customers, and partners.

We Foster Transparent Communication

We are committed to open and honest dialogue, ensuring that information flows freely within our organization, promoting trust and clarity.

We Cultivate Generous Collaboration

We actively encourage a culture of cooperation and support, where individuals are empowered to share ideas and work together generously to achieve common goals.

Our Quality Statement

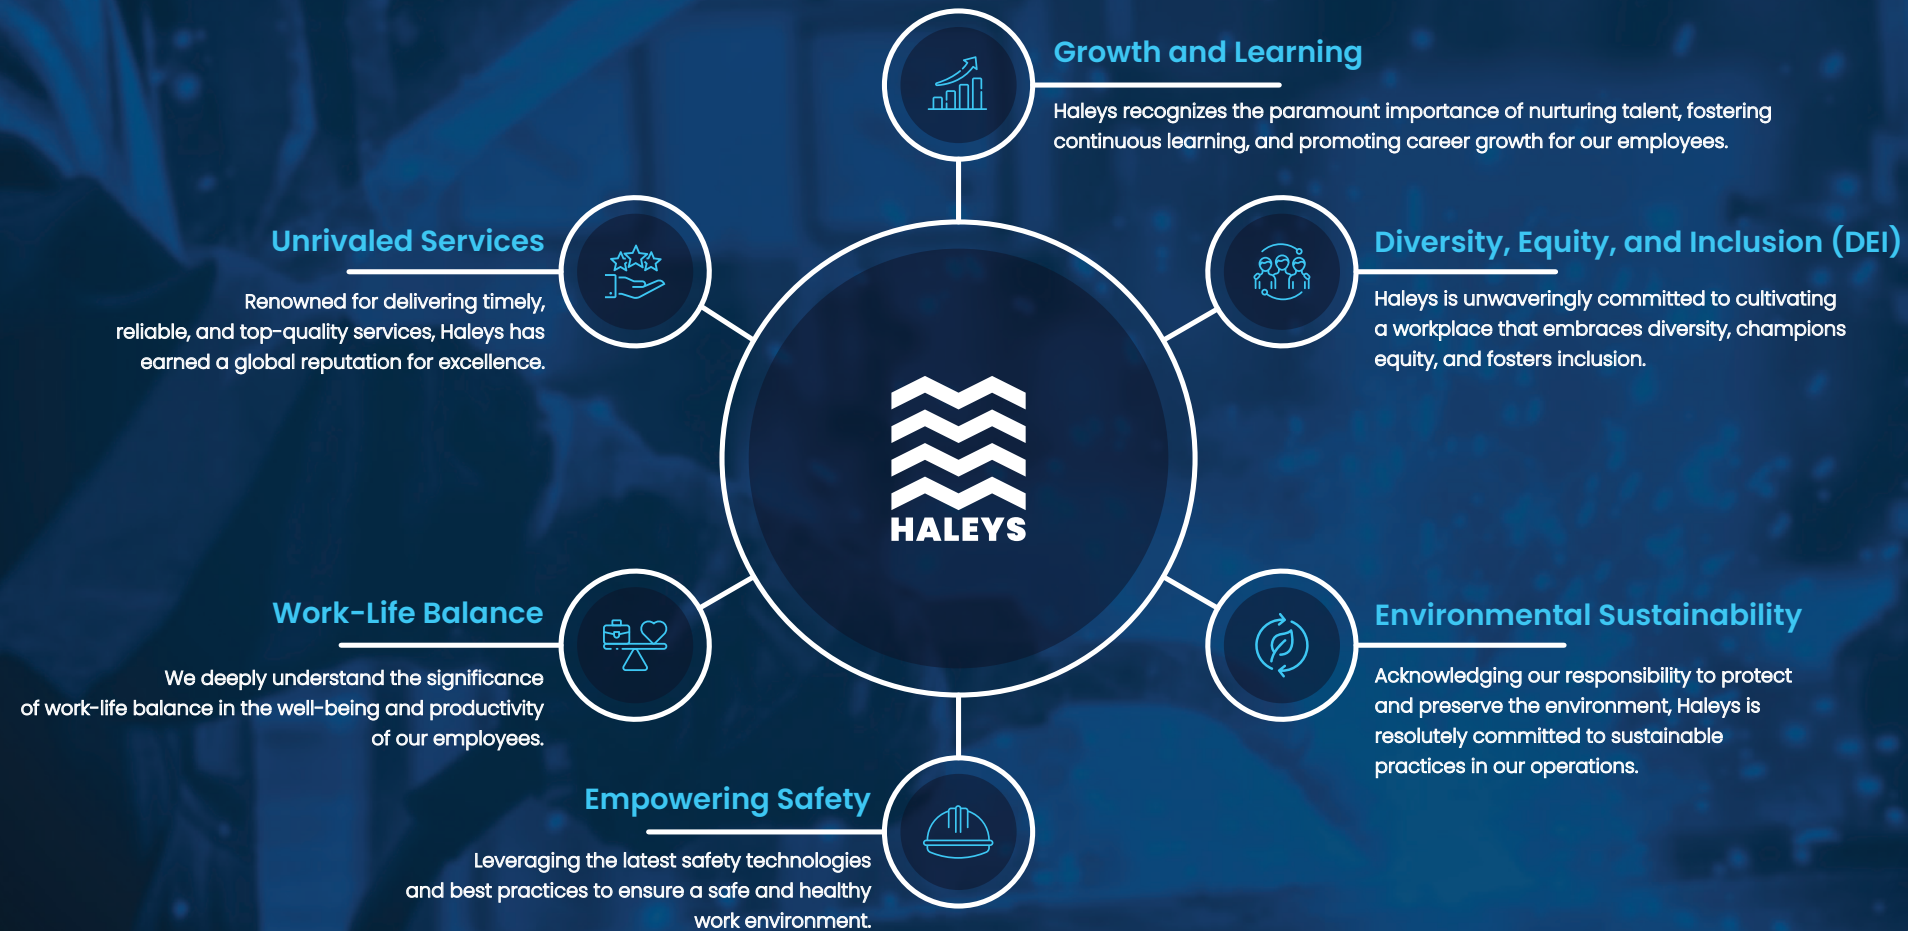

“At HALEYS, we set the standard for excellence in every facet of our operations. We are dedicated to continuous improvement, utilizing cutting-edge technology, and adhering to the highest industry standards. Our pursuit of excellence ensures the safety, satisfaction, and success of our valued clients, as we forge a sustainable future together.”

Our Commitments

At Haleys, our commitment to excellence encompasses career growth, learning, DEI, environmental sustainability, social impact, work-life balance and Unrivaled Services. We aspire to be industry leaders in every facet of our operations, forging a sustainable future while setting the benchmark for engineering support services.

Engineering Design and Verification Services

Elevating Engineering Excellence with HALEYS

Are you ready to elevate your engineering projects to new heights? Look no further than HALEYS! We're your premier partner for a comprehensive range of engineering solutions that stand out for their unparalleled expertise and coverage.

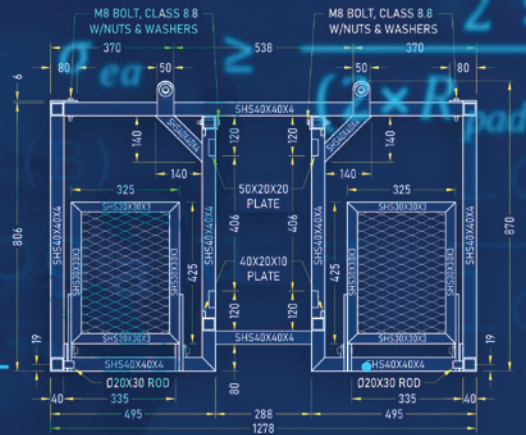

Setting the Bar for Excellence

At HALEYS, we don't just meet industry standards; we set them. Our dedicated team of internationally trained engineers, armed with cutting-edge design and verification software, is here to lead the way in ensuring your projects reach their full potential.

Your Engineering Dreams, Our Expertise

We understand that your dreams and projects are as unique as you are. HALEYS boasts a team of experienced engineers, well-versed in international regulations, who dive deep into the intricacies of your design. Safety and compliance are non-negotiables for us.

Comprehensive Design Services

Designing of new Steel structures and Offshore Containers

Design Appraisal by external bodies such as Bureau Veritas, DNV etc.

Engineering Drawings

Engineering Calculations

Our Services Include:

Reverse Engineering

Asset Life Evaluation

No Compromises, No Shortcuts

We meticulously appraise every aspect of your design, scrutinizing drawings, calculation notes, specifications, functional diagrams, and special surveys with a fine-toothed comb. Our use of premium software guarantees that every model, assembly, and drawing meets the gold standard. No compromises, no shortcuts. Plus, our results are backed by rock-solid verification through simulation software.

Why Choose HALEYS?

HALEYS is not just a service; it's a commitment to excellence. We are your dedicated partner in success, focused on enhancing the safety, efficiency, and reliability of your projects. With HALEYS, your engineering visions are poised to become triumphs.

Manufacturing, Repair, & Modification of Steel Structures

Your Trusted Partner for Steel Structures and Offshore Containers

HALEYS is your all-encompassing solution for a wide spectrum of services, ranging from manufacturing, repair, and modification of steel structures to offshore container design, manufacturing, and maintenance.

Our unwavering commitment to precision, safety, and adherence to international standards is the common thread that weaves through every aspect of our offerings.

Steel Structures and Offshore Containers: Certified Quality Across the Board

At HALEYS, quality is our hallmark. We bring you steel structures designed, manufactured, repaired, and modified in strict compliance with the highest industry standards. Our offshore containers are no exception and are certified in adherence to EN ISO 10855-1:2018, DNV-ST-E271 2.7-1, and DNV-ST-E273 2.7-3 as required. Whether it's a new fabrication, meticulous repair work, expert modification, reverse engineering or re-certification, we ensure that every aspect of your project meets rigorous safety and performance benchmarks.

Quality and Certification

Our unwavering commitment to quality assurance means that our products and containers conform to strict quality and manufacturing standards. These standards comply with EN ISO 10855-1:2018, DNV-ST-E271 2.7-1, and DNV-ST-E273 2.7-3 international quality certifications, offering you the utmost peace of mind.

Customization Expertise

We understand that one size does not fit all. HALEYS boasts a proven track record in custom manufacturing and the art of modifying steel structures and offshore containers to cater to your specific needs. Our experienced and skilled production team ensures that every structure and container is designed, manufactured, and tested with a keen eye for compliance with the latest industry standards and specifications.

Our Comprehensive Service Areas Include:

- ✓ New Steel Structures
- ✓ Thorough Repairs
- ✓ Expert Modifications
- ✓ Custom Fabrication as per Client Requirements
- ✓ Offshore Container Design and Manufacturing
- ✓ Offshore Container Maintenance and Refurbishment
- ✓ Updates to the Latest Industry Standards and Statutory Regulations

Why Choose HALEYS?

HALEYS is more than a service provider; we are your dedicated partner in steel structure and offshore container solutions. Regardless of your needs, from manufacturing and repair to modification and offshore container services, we deliver quality, precision, and safety in every project. Our expertise, combined with our commitment to enhancing and preserving your assets, makes us the ideal partner for comprehensive solutions.

Precision **Engineering**

Your Source for Uncompromising Quality in Machine Shop Services

HALEYS has carved a reputation as a high-precision custom machine shop, setting industry standards for quality and on-time delivery. Our steadfast commitment is to provide products and services that consistently meet or surpass design requirements and customer contract quality specifications.

Masters of High-Precision Machining

At HALEYS, we exclusively specialize in high-precision machining. Our dedication to precision is not just a service, but a guiding principle. We craft components with unparalleled accuracy, where precision is not merely a goal, but an essential feature.

Integrated Solutions for Maximum Value

Beyond machining, we offer integrated and value-added services, such as multi-component kitting and supply chain management. Our goal is to streamline and simplify the entire process for our clients, offering comprehensive solutions that extend beyond the workshop.

Cutting-Edge Technology and Highly Skilled Team

Our arsenal boasts cutting-edge technology and equipment, complemented by a team of highly skilled personnel. This dynamic combination empowers us to maintain the highest quality standards in the industry consistently.

Excellence in Tight Tolerance Components

HALEYS is renowned for producing and assembling tight tolerance components with intricate shapes efficiently, on schedule, and at a competitive cost. The expertise and experience of our personnel are pivotal in upholding the highest standard of workmanship.

Precision Water Jet Cutting

In addition to our precision machining services, we offer precision water jet cutting. This technology enables us to cut almost any material with pinpoint precision and minimal waste, expanding our capabilities to address a broader range of material requirements.

Why Choose **HALEYS?**

HALEYS is more than a machine shop; we are your dedicated partner in precision engineering and advanced technology solutions. Our commitment to exceeding industry standards, coupled with our efficient processes and state-of-the-art equipment, ensures you receive the highest quality and precision every time.

Inspection, Integrity Management, and Specialized Services

Your Complete Solution for Inspection, Integrity Management, and Project Excellence

HALEYS is a dynamic force in the energy sector market, continuously evolving to meet the sector's ever-changing demands. Our risk-based assessment and inspection approach is at the forefront of innovation, delivering inspection services and integrity management solutions tailored precisely to your unique requirements.

The major service divisions are;

Industrial Inspection

- ▶ **Non-Destructive Examination:** Our experts employ conventional NDT methods to uncover imperfections and potential risks, ensuring the safety and reliability of your assets.
- ▶ **BHA and Tubular Inspection:** We scrutinize these critical components with a keen eye for detail, identifying any issues that might impact your drilling operations.
- ▶ **Lifting Equipment Inspection and Testing Services:** HALEYS is equipped with advanced testing equipment to conduct a range of tests on lifting equipment. Our services include destructive tests, proof load tests, NDT and dimensional analysis, overseen by competent engineers and

third-party certification bodies. We are committed to ensuring your onshore and offshore lifting equipment meets and exceeds industry standards for safety and reliability.

- ▶ **IMDG Inspection:** We navigate the complex world of dangerous goods tank's inspection and certification, ensuring your shipments comply with the International Maritime Dangerous Goods Code, ensuring safety during transport.
- ▶ **Thickness Survey:** We offer essential thickness survey services, crucial for the monitoring and maintenance of tanks, pipelines and industrial structures, identifying potential corrosion or wear issues.

Industrial Safety Training

- ▶ **Appointed Person Certification:** Training and certifying individuals to take on the crucial role of the appointed person, responsible for planning and supervising lifting operations.
- ▶ **Lifting Supervisor Certification:** Certifying lifting supervisors to oversee and manage safe lifting operations.
- ▶ **Rigger Certification:** Certifying riggers for their critical role in the safe and efficient handling of loads during lifting operations.
- ▶ **Earth Moving Equipment Operator Certification:** Training operators for the safe and effective use of earth-moving equipment.
- ▶ **Forklift Operator Certification:** Ensuring forklift operators are proficient and safe in their operations.
- ▶ **Manlift Operator Certification:** Certifying operators to safely handle manlift equipment.
- ▶ **Offshore Crane Operator Certification:** Training and certifying operators for offshore crane operations.
- ▶ **Onshore Crane Operator Certification:** Ensuring that onshore crane operators meet strict safety and competency standards.

Why Choose HALEYS?

HALEYS is your dedicated partner in ensuring the safety, compliance, and reliability of your projects. Our risk-based approach, combined with our multifaceted services, delivers results that meet and exceed your expectations. We're not just an inspection, training and integrity management provider; we're your assurance of excellence.

Equipment **Rental**

Your Premier Source for Specialized Equipment Rentals

Delivering Excellence in Rental Equipment to the Oil and Gas Sector

HALEYS Rentals is a leading provider of specialty rental equipment in the vibrant Oil and Gas market of Qatar. We are committed to delivering top-tier products and services, striving for the highest quality in everything we do. Our rental fleet is equipped with the very best containers and equipment, featuring modern, state-of-the-art units that meet and exceed the industry's strictest standards.

Quality, Compliance, and Certification

At HALEYS Rentals, we prioritize quality, compliance, and certification. Our equipment is designed, manufactured, and certified by Third Party Inspection Companies to ensure strict adherence to the highest standards, including BS EN 12079, DNV standards, and QP Regulations.

Why Choose **HALEYS Rentals**?

HALEYS Rentals is your trusted partner for reliable, top-quality equipment rental. Our modern fleet, strict adherence to standards, and a diverse range of equipment ensure you have the resources you need for your projects, backed by a commitment to excellence.

Our Comprehensive Equipment

Rental of Certified Cargo Carrying Units and accessories

- Mini Containers
- 10 Feet Open Top & Closed Containers
- 20 Feet Open Top & Closed Containers
- Cargo Baskets
- Half Height Offshore Containers
- Offshore Waste Skips
- Offshore Reefer Containers
- Drum Baskets
- Chemical Tank Containers
- Offshore Lifting Frames
- Steel Pallets
- CSC Containers
- Bottle Racks

Rental of Certified Testing Equipments & Cranes

- Calibrated Certified Test Weights
- Calibrated Certified Load Cells
- Certified Water Bags
- Calibrated Testing Accessories & Cranes

Secondment of **Technical Experts**

Your Trusted Resource for Expert Technical Support

HALEYS offers a specialized service in secondment of technical experts, providing you with an invaluable resource for your projects. Our technical experts are skilled professionals with the knowledge and experience to address your specific needs effectively.

Tailored Expertise for Your Success

We understand that every project has unique challenges and requirements. That's why our secondment services are tailored to provide you with technical experts who possess the precise skills and knowledge necessary to excel in your specific industry or field.

Why Choose HALEYS for **Technical Expert Secondment?**

Our technical expert secondment service offers a flexible, cost-effective way to access top-tier talent. You benefit from the expertise you need, precisely when you need it, without the complexities of hiring additional permanent staff.

Our Range of Expertise

HALEYS technical experts cover a wide spectrum of disciplines, including but not limited to:

-  Engineering design
-  Quality assurance and control
-  Project management
-  Integrated Turnaround and Maintenance management
-  Health, safety and information security
-  Environmental compliance
-  Regulatory compliance
-  Operational efficiency

Featured **Services**

Industrial Support Services

-  Engineering Design Services
-  Certified Steel Fabrication
-  Offshore CCU Design, Manufacturing and Rental
-  Critical Lifting Plan Development and Execution
-  Gap Analysis and Corrective Action Planning
-  Turnaround and Maintenance Services
-  Specialized Manpower Supply
-  Storage & Logistic Solutions
-  Marine, Onshore & Offshore Engineering Support

Testing & Certification Solutions

-  Offshore Crane Load Path Inspection
-  Reverse Engineering, Prototyping & testing of Offshore CCUs
-  IMDG Testing and Certification
-  Helideck Inspection & Friction Test
-  Computerised Tensile Testing of Lifting Equipment
-  Onshore and Offshore Non-destructive Testing
-  Rope Access with Inspection & Maintenance
-  Dropped Object Survey
-  Testing-Equipment & Crane Rental

Our Commitment to Excellence

At HALEYS, our journey is defined by a relentless pursuit of excellence. Through dedication, innovation, and unwavering commitment, we have achieved several prestigious certifications that underscore our commitment to quality, environmental sustainability, and occupational health and safety.

QUALITY

ISO Certifications

Ensuring top-notch quality management.

Demonstrating environmental stewardship.

Prioritizing occupational health and safety.

Regulatory Compliance

We adhere to all industry standards and statutory requirements, ensuring our projects are not only compliant but also surpass regulatory expectations.

HALiTrack **24/7**

Online platform for secure collaboration with customers and suppliers, ensuring seamless and successful project management.

At HALEYS, we are committed to driving business excellence through innovation and technology. Our HALiTrack Portals are designed to offer unparalleled security and efficiency, transforming the way our customers and vendors interact with us.

Customer Portal

- Seamless 24/7 Access**
Our Customer Portal provides round-the-clock access to manage your relationship with HALEYS, ensuring you are always informed and engaged.
- Tailored Client Experience**
Track commercial offers, service orders, invoices, and project updates in real-time, customized to meet your specific needs.
- Enhanced Communication**
Engage seamlessly with our dedicated team for support and inquiries, optimizing your business interactions.

Vendor Portal

- Efficient Order Management**
Manage your orders, proposals, and invoices effortlessly with real-time access to crucial information and updates.
- Streamlined Collaboration**
Enhance your partnership with HALEYS through efficient communication and secure online interactions.
- Payment Advisories**
Receive timely payment advisories and updates, ensuring a smooth financial workflow.
